Our Partners

DiversityRx and Resources for Cross Cultural Health Care have received support from many sources over the years. We’re grateful to the Henry J. Kaiser Family Foundation for funding the initial launch of the DiversityRx website, which we created in partnership with the National Conference of State Legislatures. Our research and policy projects have been funded by several agencies of the US Department of Health and Human Services, including the Office of Minority Health, the Agency for Health Care Research and Quality, and the Health Resources and Services Administration. As the co-producer of the National Conference Series on Health Care for Culturally Diverse Populations, we have received funding from many public and private organizations [1].

The DiversityRx Your Voice initiative and website redesign has been generously funded by The California Endowment [2]. In addition, we are very pleased to be working with the Agency for Healthcare Research & Quality [3] (AHRQ) and California Pan-ethnic Health Network [4] (CPEHN), The Joint Commission [5], and The National Committee for Quality Assurance [6] (NCQA) on numerous Your Voice activities.
